Rocky Run, eight miles from here, was found yesterday with a horrible gash cut across his throat by a razor, which was found by his side. It seems that on Thursday morning last, Mr. and Mrs. Carney went away from home for a few days and left the old man in charge of the house. On their return home the old man was missing, and they found that he had changed his clothes, but no signs of him were discovered until yesterday morning. DINNERS, BALLS AND FETES succeed each other with bewildering rapidity. Ministerial and private entertainments innumerable are given. The event of the week in this respect was the grand ball given to the Princes and Princess of Wales by the Princess de Saignon. It was a magnificent affair. Twelve hundred invitations were issued. The electric light plays a great part in these feter. In the garden its effect is perfectly fairy-like. It has just been introduced on the stage at the Theatre du Chatelet.

The Exhibition is doing a world of good to Paris. The returns of the Octrol show an increase in the import duties on goods received at the Paris barriers, since the opening of the Exhibition, of 1,500,000 (\$300,000) over the corresponding period of last year. This means that Paris is laying in provisions to feed an immensely increased population during the Exhibition. The receipts from wine alone have been enormous. Missionary Anniversary.

This caused a deficiency of \$47,329, of the receipts as compared with the expenses, and the outlook was dark and gloomy. The work will be required to be expanded instead of contracted. Great work was being accomplished in the foreign lands of India, China, Japan, Siam, Africa, &c.
